

SPORTAUS

Hospital tag

A nominated player tags any other player. The tagged player becomes the new tagger but has to hold the part of the body that was tagged. Play with 6 or more.

What to do

- > Establish boundaries.
- > Nominate a player to be the tagger – disperse the other players over the playing area.
- > Start the activity with jogging.

Change it

- > Every player has to mirror the tagger who is holding a body part (i.e. hold the same body part as the tagger). Players will have to be extra alert because everyone else looks like a tagger!

Safety

- > If indoors, boundaries should be away from walls or freestanding objects.
- > Players should be familiar with space and player awareness activities such as *All-in tag* and *Look out for others!*
- > Encourage players holding a body part to be on the lookout for other players.

LEARNING INTENTION

Hospital tag develops spatial awareness and movement skills. Students practise dodging and running whilst building awareness of the space they are moving in and the people that are moving around them.
