

ASC Restorative Program

Supporting former AIS scholarship athletes who experienced harm from inappropriate practices or abuse.

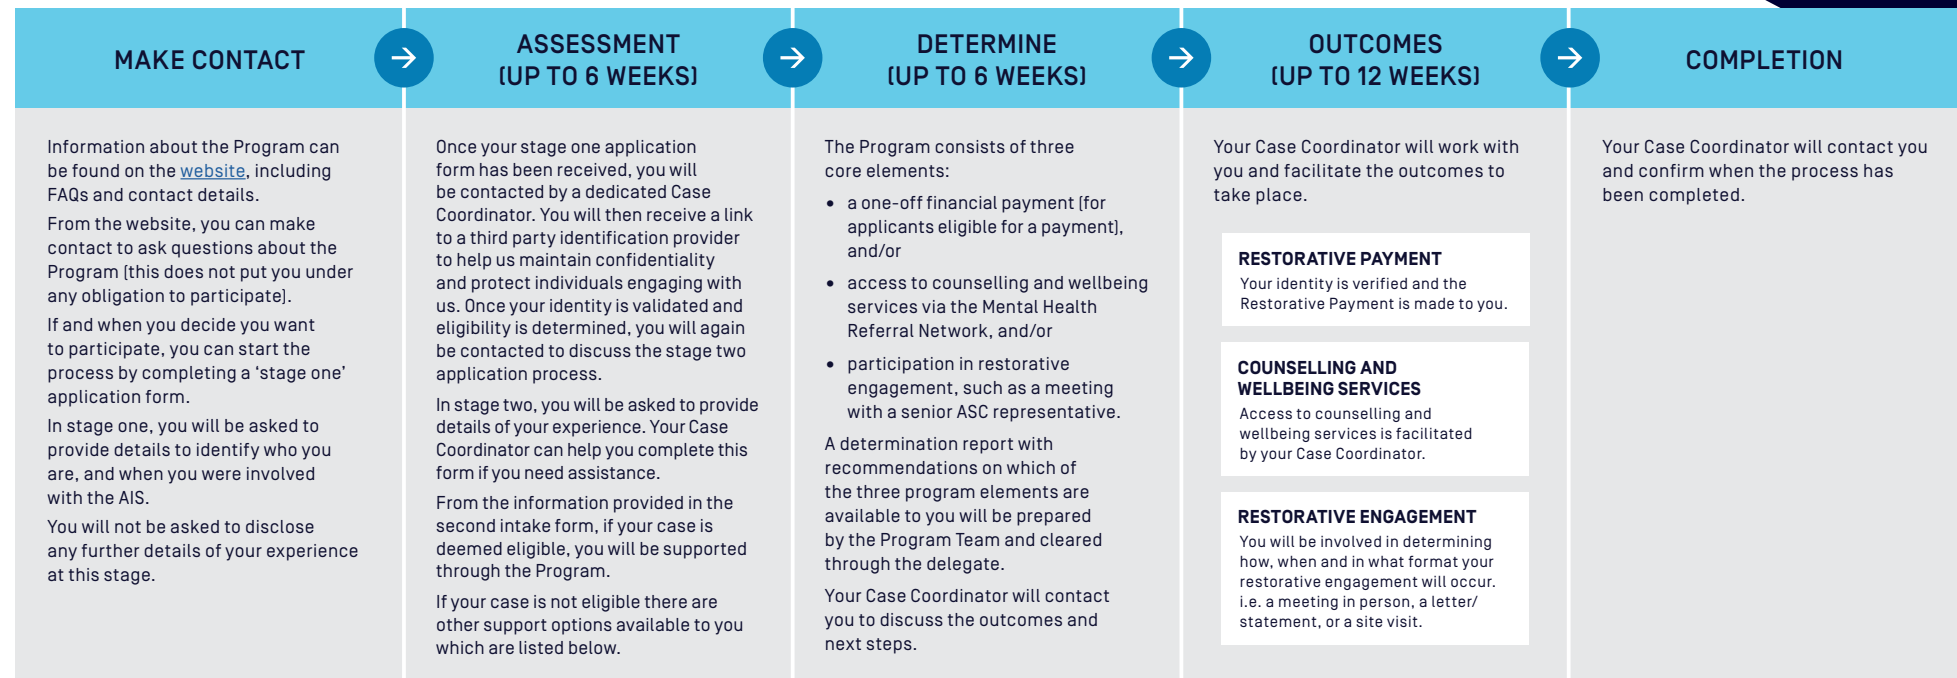

This fact sheet outlines what you can expect if you participate in the ASC Restorative Program (the Program). Our aim is to make this process as seamless for you as possible.

You will be assigned a Case Coordinator who will be your dedicated point of contact throughout the process. You can contact them at any time with questions about the Program or any step in the process.

You can also stop, slow down or remove yourself from the Program (and any process step) at any time.
