⁽a) Relates to persons aged 15 years and over who participated in physical activity for exercise, recreation and sport over a 12-month period prior to interview in 2009

⁽b) For any group, the total participation rate is the number of persons who participated in the activity at least once in the last 12 months expressed as a percentage of the population in the same group

⁽c) Participants' activities are fully organised

⁽d) Participants' activities are fully non-organised

⁽e) Participants' activities are part organised and part non-organised

^{*} Estimate has a relative standard error of between 25% and 50% and should be used with caution

^{**} Estimate has a relative standard error greater than 50% and is considered too unreliable for general use

⁽a) Relates to persons aged 15 years and over who participated in physical activity for exercise, recreation and sport over a 12-month period prior to interview in 2009

⁽b) For any group, the total participation rate is the number of persons who participated in the activity at least once in the last 12 months expressed as a percentage of the population in the same group

^{*} Estimate has a relative standard error of between 25% and 50% and should be used with caution

^{**} Estimate has a relative standard error greater than 50% and is considered too unreliable for general use

⁽a) Relates to persons aged 15 years and over who participated in physical activity for exercise, recreation and sport over a 12-month period prior to interview in 2009

⁽b) For any group, the total participation rate is the number of persons who participated in the activity at least once in the last 12 months expressed as a percentage of the population in the same group

^{*} Estimate has a relative standard error of between 25% and 50% and should be used with caution

^{**} Estimate has a relative standard error greater than 50% and is considered too unreliable for general use
