AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

- Note 1 : Summary of significant accounting policies
- Note 2 : Events after the reporting period
- Note 3 : Expenses
- Note 4 : Own-source income
- Note 5 : Financial assets
- Note 6 : Non-financial assets
- Note 7 : Other payables
- Note 8 : Provisions
- Note 9 : Cash flow reconciliation
- Note 10 : Fair value measurement
- Note 11 : Related party disclosures
- Note 12 : Senior management personnel remuneration
- Note 13 : Remuneration of auditors
- Note 14 : Financial instruments
- Note 15 : Assets held in trust
- Note 16 : Reporting of outcomes
- Note 17 : Explanations of major variances

## Note 1: Summary of significant accounting policies

### 1.1 Objectives of the Australian Sports Commission

The Australian Sports Commission (the Commission) is an Australian Government controlled entity. It is a not-for-profit corporate Commonwealth entity. The purpose of the Commission is to strengthen Australian sport – to enable more people to play sport and Australian athletes and teams to succeed on the world stage. The Commission promotes and supports the development of a cohesive and effective national sports sector that creates opportunities for all Australians to participate and excel in sport.

The Commission is structured to meet two outcomes:

**Outcome 1:** Improved participation in structured physical activity, particularly organised sport, at the community level, including through leadership and targeted community-based sports activity.

**Outcome 2:** Excellence in sports performance and continued international sporting success, by talented athletes and coaches, including through leadership in high-performance athlete development, and targeted science and research.

On 1 July 2016 the Commission will transition to the following single outcome:

**Outcome 1:** Increased participation in organised sport and continued international sporting success including through leadership and development of a cohesive and effective sports sector, provision of targeted financial support, and the operation of the Australian Institute of Sport.

The continued existence of the Commission in its present form and with its present program is dependent on Government policy and on continuing funding by Parliament for the Commission's administration and program.

### 1.2 Basis of preparation of the Financial Statements

The financial statements are general purpose financial statements and are required by section 42 of the *Public Governance, Performance and Accountability Act 2013* (PGPA Act).

The financial statements and notes have been prepared in accordance with:

- the *Public Governance, Performance and Accountability (Financial Reporting) Rule 2015* (FRR) for reporting periods ending on or after 1 July 2014; and
- Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention, except for certain assets and liabilities at fair value. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position.

The financial statements are presented in Australian dollars and values are rounded to the nearest thousand dollars unless otherwise specified.

### 1.3 Significant accounting judgements and estimates

In the process of applying the accounting policies listed in this note, the Commission has made the following judgements that have the most significant impact on the amounts recorded in the financial statements:

- a) The fair value of buildings has been taken to be the depreciated replacement cost as determined by an independent valuer. The Commission uses this valuation methodology as the buildings are purpose built and may in fact realise more or less than the market value.
- b) The Commission assesses impairment of all assets at each reporting date by evaluating conditions specific to the Commission and to the particular asset that may lead to impairment. If an impairment trigger exists then the recoverable amount is restated.

No accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next accounting period.

### 1.4 New Australian Accounting Standards

#### Adoption of new Australian Accounting Standard Requirements

The Commission has elected to apply *AASB 2015-7 Amendments to Australian Accounting Standards – Fair Value Disclosures of Not-for-Profit Public Sector Entities* for this financial year, even though the Standard is not required to be applied until annual reporting periods beginning on or after 1 July 2016. AASB 2015-7 provides relief from disclosing quantitative information about significant unobservable inputs used in fair value, where property, plant and equipment is held for its current service potential rather than to generate future net cash inflows.

No new, revised or amended standards were issued prior to the signing of the Statement by the Chair of the Board, Chief Executive Officer and the Chief Financial Officer applicable to the current reporting period that have a material effect, and are not expected to have a future material effect, on the Commission's financial statements.

#### Future Australian Accounting Standard Requirements

The following new standards, amendments to standards or interpretations were issued by the Australian Accounting Standards Board prior to the signing of the Statement by the Chair of the Board, Chief Executive Officer and Chief Financial Officer and are expected to have an impact on the Commission for future reporting periods.

- AASB 9 *Financial instruments* (applicable to reporting periods beginning on or after 1 January 2018) represents the first phase of a three-phase process to replace AASB 139 *Financial Instruments*:

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS

For the year ended 30 June 2016

---

*Recognition and Measurement.* The standard reduces the four categories of financial asset to two: amortised cost and fair value. Given the make-up of the Commission's financial assets (amortised cost items such as loans, receivables, term deposits), the new standard is not expected to impact its treatment or valuation of these assets.

- AASB 15 *Revenue from Contracts with Customers* (applicable to reporting periods beginning on or after 1 January 2018) establishes principles for reporting information about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers, with revenue recognised once performance obligations are satisfied. While this will apply for contracts that are exchange transactions, non-exchange transactions will continue to come under AASB 1004 *Contributions*. The Commission's treatment of exchange transactions and performance obligations is consistent with the requirements of the standard, and its introduction is not expected to materially impact revenue recognition.
- AASB 16 *Leases* (applicable to reporting periods beginning on or after 1 January 2019) requires all lessees to account for their leases (except those at low value or less than 12 months) on the Statement of Financial Position. Accounting treatment for lessors will be unchanged. This will impact the treatment and disclosure of the operating leases the Commission has entered into as the lessee.

Other reissued standards and amendments that were issued prior to the signing of the Statement by the Chair of the Board, Chief Executive Officer and the Chief Financial Officer and are applicable to the future reporting periods are not expected to have a future financial impact on the Commission.

## 1.5 Revenue

Revenue from the sale of goods is recognised when:

- the risks and rewards of ownership have been transferred to the buyer;
- the Commission retains no managerial involvement or effective control over the goods;
- the revenue and transaction costs incurred can be reliably measured; and
- it is probable that the economic benefits associated with the transaction will flow to the Commission.

Revenue from the rendering of services is recognised by reference to the stage of completion of contracts at the reporting date. The revenue is recognised when:

- the amount of revenue, stage of completion and transaction costs incurred can be reliably measured; and
- the probable economic benefits associated with the transaction will flow to the Commission.

The stage of completion of contracts at the reporting date is determined by reference to the proportion that costs incurred to date, bear to the estimated total costs of the transaction.

Receivables for goods and services, which have 30-day terms, are recognised at the nominal amounts due less any impairment allowance account. Collectability of debts is reviewed at the end of the reporting period. Allowances are made when collectability of the debt is no longer probable.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

Interest revenue is recognised using the effective interest method as set out in AASB 139 *Financial Instruments: Recognition and Measurement*.

**Resources received free of charge**

Resources received free of charge are recognised as revenue when, and only when, a fair value can be reliably determined and the services would have been purchased if they had not been donated. Use of those resources is recognised as an expense. Resources received free of charge are recorded as either revenue or gains depending on their nature.

**Revenue from Government**

Funding received or receivable from non-corporate Commonwealth entities (appropriated to the entity as a corporate Commonwealth entity payment item for payment to the Commission) is recognised as Revenue from Government unless they are in the nature of an equity injection or a loan.

**Contributions received**

Revenue arising from the contribution of an asset to the Commission (including sponsorship) is recognised when:

- the Commission obtains control of the contribution or has the right to receive the contribution;
- it is probable that the economic benefits comprising the contribution will flow to the entity; and
- the amount of the contribution can be reliably measured.

Revenue is recognised irrespective of whether restrictions or conditions are imposed on the use of the contribution.

## **1.6 Gains**

**Sale of assets**

Gains from disposal of non-current assets are recognised when control of the asset has passed to the buyer.

## **1.7 Transactions with the Government as owner**

**Equity injections**

Amounts which are designated as 'equity injections' for a year are recognised directly in contributed equity in that year.

**Other distributions to owners**

Other distributions to owners are debited to contributed equity unless in the nature of a dividend.

## **1.8 Employee benefits**

Liabilities for short-term employee benefits (as defined in AASB 119 *Employee Benefits*) and termination benefits expected within twelve months of the end of the reporting period are measured at their nominal amounts.

The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

**Leave**

The liability for employee benefits includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees of the Commission is estimated to be less than the annual entitlement for sick leave.

The leave liabilities are calculated on the basis of employees' remuneration at the estimated salary rates that will be applied at the time the leave is taken, including the Commission's employer superannuation contribution rates to the extent that the leave is likely to be taken during service rather than paid out on termination.

The liability for long service leave and annual leave has been determined by reference to the work of an actuary as at 30 June 2015. The estimate of the present value of the liability takes into account attrition rates and pay increases through promotion and inflation.

**Separation and redundancy**

A liability is recognised for separation and redundancy benefit payments. The entity recognises a liability for termination when it has developed a detailed formal plan for the terminations or when an offer is made to an employee and is accepted.

**Superannuation**

Staff of the Commission are members of the Commonwealth Superannuation Scheme (CSS), the Public Sector Superannuation Scheme (PSS), the PSS accumulation plan (PSSap), Australian Super, CARE Superannuation, CBUS Industry Super Pty Ltd, Health Employees Super Trust (HESTA), Media Super (MEDIA) and Labour Union Co-operative Retirement Fund (LUCRF).

The CSS and PSS are defined benefit schemes for the Australian Government. The remaining funds are defined contribution schemes.

The liability for defined benefits is recognised in the financial statements of the Australian Government and is settled by the Australian Government in due course. This liability is reported in the Department of Finance's administered schedules and notes.

The Commission makes employer contributions to the employee superannuation schemes at rates determined by an actuary to be sufficient to meet the current cost to the Government of the superannuation entitlements of the Commission's employees. The Commission accounts for the contributions as if they were contributions to defined contribution plans.

The liability for superannuation recognised as at 30 June represents outstanding contributions for the year.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

## 1.9 Leases

Operating lease payments are expensed evenly over the lease term. The Commission does not have any finance leases.

## 1.10 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents include cash on hand and demand deposits in bank accounts that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

## 1.11 Financial assets

The Commission classifies its financial assets in the following categories:

- held-to-maturity investments; and
- loans and receivables.

Financial assets are recognised and derecognised upon trade date.

### **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis.

### **Held-to-maturity investments**

Term deposits held by the Commission are classified as 'held-to-maturity investments' and are initially recognised at fair value. Term deposits are subsequently recorded at amortised cost using the effective interest method less impairment, with revenue recognised on an effective yield basis.

### **Loans and receivables**

Loans, trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest rate.

Loans and other receivables provided on more favourable terms than the borrower could obtain in the market place contain a concessional discount. The concessional loan is initially recognised at fair value and the difference between notional and fair values is expensed upon initial recognition, if material. Concessional loans are subsequently amortised using the effective interest rate method.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

**Impairment of financial assets**

Financial assets are assessed for impairment at the end of each reporting period. If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the asset's original effective interest rate. The carrying amount is reduced by way of an allowance account.

The loss is recognised in the Statement of Comprehensive Income.

**1.12 Financial liabilities**

Supplier and other payables are initially measured at fair value, net of transaction costs. These liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. Financial liabilities are recognised and derecognised upon trade date. Supplier and other payables are settled within 30 days.

Liabilities are recognised to the extent that the goods or services have been received (irrespective of having been invoiced).

**1.13 Contingent liabilities and contingent assets**

The Commission has no quantifiable or unquantifiable contingent assets or liabilities as at 30 June 2016 (2015: nil).

**1.14 Acquisition of assets**

Assets are recorded at cost on acquisition except as stated below. The cost of acquisition includes the fair value of assets transferred in exchange and liabilities undertaken. Financial assets are initially measured at their fair value plus transaction costs where appropriate.

Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and income at their fair value at the date of acquisition.

**1.15 Property, plant and equipment**

**Asset recognition threshold**

Purchases of property, plant and equipment are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than the threshold for the asset's sub-class, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total or are purchases of computer equipment).

The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located. This is particularly relevant to 'make-good' provisions in property leases taken up by the Commission where there exists an obligation to restore the property to its original condition. These costs

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

are included in the value of the Commission's leasehold improvements with a corresponding provision for the make-good recognised.

**Revaluations**

Fair values for each class of asset are determined as shown below:

Asset Class	Sub-class
Land	Market selling price
Land improvements	Depreciated replacement cost
Buildings (excluding leasehold improvements)	Depreciated replacement cost
Leasehold improvements	Depreciated replacement cost
Property, plant and equipment	Market selling price and depreciated replacement cost

Following initial recognition at cost, property plant and equipment are carried at fair value. Valuations are conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date. The regularity of independent valuations depends upon the volatility of movements in market values for the relevant assets.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reverses a previous revaluation decrement of the same asset class that was previously recognised through operating result. Revaluation decrements for a class of asset are recognised directly through operating result except to the extent that they reverse a previous revaluation increment for that class.

Any accumulated depreciation as at the revaluation date is restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its re-valued amount.

**Depreciation**

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful lives to the Commission using, in all cases, the straight-line method of depreciation.

Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

AUSTRALIAN SPORTS COMMISSION  
 NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
 For the year ended 30 June 2016

Depreciation rates applying to each sub-class of depreciable asset are based on the following useful lives:

Asset Class	Sub-class	2016	2015
Buildings	Buildings	<b>3 - 75 years</b>	3 - 75 years
Land improvements	Land improvements	<b>15 - 40 years</b>	15 - 40 years
Leasehold improvements	Leasehold improvements	<b>Lease term</b>	Lease term
Property, plant and equipment	Furniture, fittings, plant and equipment	<b>4 - 25 years</b>	4 - 25 years
Property, plant and equipment	Computer hardware	<b>3 - 5 years</b>	3 - 5 years

Property, plant and equipment	Motor vehicles	<b>2 - 10 years</b>	2 - 10 years

**Impairment**

All assets were assessed for impairment at 30 June 2016. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

**Derecognition**

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal.

**1.16 Intangibles**

The Commission's intangibles comprise purchased and internally-developed software.

Purchases of intangibles are recognised initially at cost in the Statement of Financial Position, except for purchases costing less than the threshold of the asset's sub-class, which are expensed in the year of acquisition (other than where they form part of a group of similar items which are significant in total).

These assets are carried at cost less accumulated amortisation and accumulated impairment losses.

Software is amortised on a straight-line basis over its anticipated useful life. The useful lives of the Commission's software are 3 to 7 years (2015: 3 to 7 years).

All software assets were assessed for indications of impairment as at 30 June 2016.

**1.17 Inventories**

Inventories held for sale are valued at the lower of cost and net realisable value. Inventories held for distribution are valued at cost, adjusted for any loss of service potential.

Inventories acquired at no cost or for nominal consideration are initially measured at current replacement cost at the date of acquisition. All inventories are expected to be sold or distributed in the next 12 months.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

### 1.18 Taxation

The Commission is exempt from all forms of taxation except Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST). Revenues, expenses, liabilities and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables, payables and commitments.

### 1.19 Grants

Grant expenses and liabilities are recognised to the extent that:

- (i) the services required to be performed by the grantee have been performed; or
- (ii) the grant eligibility criteria have been satisfied, but payments due have not been made.

Where some or all of a grant is required to be repaid, the Commission recognises the amount to be repaid, or due to be repaid as:

- (i) a reduction in grant expenses if the repayment of grant monies arises in the same financial year that the grant expense was incurred; or
- (ii) an increase in income if the grant expense was incurred in a prior financial year.

### 1.20 Foreign currency

Transactions denominated in a foreign currency are converted at the exchange rate at the date of the transaction. Foreign currency receivables and payables are translated at the exchange rates current as at the end of the financial year. Net foreign exchange gains and losses (both realised and unrealised) arising from foreign currency transactions are reported in the Statement of Comprehensive Income.

## Note 2: Events after the reporting period

There were no events occurring after reporting date which would significantly affect the ongoing structure and financial activities of the Commission.

Australian Paralympics Committee Ltd Loan

In June 2015, the Commission provided a \$2,500,000 loan facility to the Australian Paralympics Committee Ltd (APC) as part of an assistance package for restructuring and other financial assistance. At 30 June 2016, \$2,250,000 of this facility was drawn and no further payments are expected from the undrawn portion of the facility. The loan is repayable over a 6 year loan term and attracts a floating interest charge.

Cycling Australia Ltd Loan

In September 2014, the Commission provided two loans of \$500,000 and \$1,000,000 to Cycling Australia Ltd (CA) as part of an assistance package for restructuring and other financial assistance. The loans are repayable over 4 and 6 year loan terms (respectively) and both loans attract a floating interest charge.

During 2016, the Commission recognised an impairment allowance in connection with the loans to CA. The amount has been measured as the difference between the loan carrying amount and the value of estimated future cashflows. Estimated future cash flows are based on the ASC's best estimate after assessing all available evidence and considering a range of potential outcomes. The ASC is working closely with CA to address this financial situation.

The above carrying values include work in progress costs for buildings and land improvements (\$1,216,812) and computer software (\$1,072,572).

Revaluation of property, plant and equipment

All revaluations were conducted in accordance with the revaluation policy stated at Note 1. An independent valuer conducted the most recent revaluation of land and buildings as at 30 June 2016 and infrastructure, plant and equipment as at 31 December 2014.

Contractual commitments for the acquisition of property, plant, equipment and intangibles

The Commission had \$155,367 outstanding contractual commitments for property, plant, equipment and intangibles as at 30 June 2016 (2015: \$280,776). Contractual commitments primarily relate to equipment purchases. The Commission expects all contractual commitments to be settled within 12 months.

Fair value measurements, valuation technique and inputs used

	2016 \$'000	2015 \$'000	Category (Level 1, 2 or 3)	Valuation technique(s) <sup>1</sup>	Significant Inputs
--	----------------	----------------	----------------------------------	--	--------------------

Non-financial assets

Land	10,000	10,000	Level 2	Market approach	Sales price of comparable land
Buildings	214,651	217,555	Level 3	Depreciated replacement cost	Replacement cost, expected useful life, adjustments for obsolescence
Infrastructure, plant and equipment	9,740	9,612	Level 2	Market approach	Sales price of similar items in the market
Infrastructure, plant and equipment	3,152	2,731	Level 3	Depreciated replacement cost	Replacement cost, expected useful life, adjustments for obsolescence
<b>Total non-financial assets</b>	<b>237,543</b>	<b>239,898</b>			

<sup>1</sup> No changes in valuation technique occurred during the period.

The highest and best use of all non-financial assets is the same as their current use.

Recurring and non-recurring Level 3 fair value measurements - valuation processes

With regard to land improvements, leasehold improvements and buildings, the Commission procured valuation services in 2015-16 from Preston Rowe Patterson National Property Consultants (PRP) and has relied on valuation models provided by PRP, which are contractually required to be in line with AASB 13. The Commission reviews the assumptions and outcomes of the valuer's services to obtain comfort that the movements in fair value are reasonable and the process in accordance with AASB 13.

With regard to other property, plant and equipment, the Commission procured valuation services from Pickles Valuation Services (PVS) in 2014-15, with a desktop review in 2015-16. For assets that PVS were unable to identify a market comparison an alternative approach was required. These assets were tested by a depreciated replacement cost (DRC) approach, containing Level 3 Inputs. In doing so, PVS reviewed the estimated replacement cost rates.

A reconciliation of movements in asset classes has been included at Note 6.

AUSTRALIAN SPORTS COMMISSION  
NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
For the year ended 30 June 2016

---

Note 11: Related party disclosures

Loans to Commissioners and Commissioner-related entities

There were no loans made to Commissioners or Commissioner-related entities.

Contributions to related organisations

Contributions were made to various Commissioner-related sporting organisations. They were approved and made on normal terms and conditions. Commissioners are required to register conflicts of interest and are not part of decisions where there is a real or perceived conflict. These are disclosed in the table below.

Entity	Commissioner	2016 \$'000	2015 \$'000
Australian Rugby League Commission <sup>1</sup>	Mr A Fraser	-	2,171
Australian Sports Foundation	Ms S Carbon OAM Mr M Stockwell	68	200
Australian Olympic Committee	Mr A Plympton	-	100
Football Federation Australia <sup>1</sup>	Mr D Gallop	-	3,669
Olympic Winter Institute	Ms A Camplin-Warner OAM	2,854	2,739
Swimming Australia <sup>2</sup>	Mr Mark Stockwell	11,235	-
Victorian Olympic Council	Mr Steve Moneghetti	3	-
WA Institute of Sport <sup>1</sup>	Ms S Carbon OAM	-	81
Yachting Australia	Mr A Plympton	9,155	9,863

<sup>1</sup> The entity was considered a related party in 2014-15 but not in 2015-16. Any payments made in 2015-16 have not been disclosed.

<sup>2</sup> The entity became a related party in 2015-16; any payments made prior to this have not been disclosed.

There were also payments to Commissioners to reimburse costs incurred on behalf of the Commission. These and the transactions referred to above were conducted with conditions no more favourable than would be expected if the transactions occurred at arm's length.

Individual Commissioners may hold professional engagements with related parties. Such engagements are not reported in this note as they are not required to be disclosed as related party transactions under Australian Accounting Standards.

	\$'000	\$'000

The cost of financial statement audit services provided to the Commission were:

The fair value of the services provided was:	69	67
--	----	----

*Other non-audit services provided by Synergy Group Australia Pty Ltd, the firm contracted by the ANAO to complete the financial statement audit, amounted to \$59,000. These services were primarily for capital and budgeting support.*

AUSTRALIAN SPORTS COMMISSION  
 NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
 For the year ended 30 June 2016

	2016 \$'000	2015 \$'000
--	----------------	----------------

Note 14: Financial instruments

**Note 14A: Categories of financial instruments**

Financial assets

Loans and receivables

Cash and cash equivalents	25,842	11,798
Receivables for goods and services	2,907	2,315
Interest receivable	407	326
Loans	3,005	2,721
Total loans and receivables	32,161	17,160

Investments held-to-maturity:

Investments under s59 of the PGPA Act	50,000	65,000
Total investments held-to-maturity	50,000	65,000

Total financial assets	82,161	82,160
------------------------	--------	--------

Financial liabilities

Other financial liabilities:

Suppliers	2,354	2,764
Grant payables	86	40
Total financial liabilities	2,440	2,804

**Note 14B: Net gains or losses on financial assets**

Loans and receivables

Foreign exchange loss	(30)	(72)
Impairment of loans and receivables	(820)	(83)
Net loss loans and receivables	(850)	(155)

Investments held-to-maturity

Interest revenue	3,054	3,623
Net gain held-to-maturity	3,054	3,623

Note 14: Financial instruments

**Note 14C: Fair value of financial instruments**

	Carrying amount 2016 \$'000	Fair value 2016 \$'000	Carrying amount 2015 \$'000	Fair value 2015 \$'000
--	--------------------------------------	---------------------------------	--------------------------------------	---------------------------------

Financial assets

Loans	3,005	2,682	2,721	2,461
-------	-------	-------	-------	-------

The carrying amount of all other financial assets and liabilities equal fair value.

**Note 14D: Credit risk**

The Commission is exposed to low overall credit risk. The majority of loans and receivables are cash, and receivables for goods and services. Investments held-to-maturity represent investments held with financial institutions with an approved credit rating, in accordance with the Commission's Investment Policy.

The maximum exposure to credit risk is the risk that arises from potential default of a debtor or financial institution. The Commission's maximum exposure to credit risk at the reporting date in relation to each class of recognised financial assets is the gross amount of those assets as indicated in the Statement of Financial Position (\$7,143,000 in 2015-16 and \$5,468,000 in 2014-15). The Commission has assessed the risks of default on payments and has allocated \$824,000 in 2015-16 (2014-15: \$106,000) to an impairment allowance accounts.

The Commission has a significant exposure to Authorised Deposit-taking Institutions (ADIs), as the majority of its cash-holdings and investments are with Australian-owned ADIs. Given that ADIs are all regulated by the Australian Prudential Regulation Authority in accordance with the *Banking Act 1959*, the level of credit risk is considered low. In addition, the Commission has an Investment Policy to only deposit funds with financial institutions with credit ratings of A-2 or greater, and to diversify across these financial institutions, which further reduces the Commission's exposure to credit risk.

The Commission has policies and procedures in place to manage its credit risk including general security deeds.

**Note 14E: Liquidity risk**

The Commission has sufficient financial assets to meet all financial liabilities at 30 June 2016.

**Note 14F: Market risk**

The Commission holds basic financial instruments that do not expose it to certain market risks.

Interest rate risk

Interest rate risk refers to the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market interest rate. The ASC is exposed to interest rate risk primary from interest bearing assets. The interest-bearing items on the Commission's Statement of Financial Position are cash, loans and term deposits.

Cash on deposit is held in a bank account with a floating interest rate. The investments bear fixed interest rates and will not fluctuate due to changes in the market interest rate.

The loans attract a floating interest rate. A +/- 60 basis point change is deemed to be reasonably possible and is used when reporting interest rate risk. The method used to arrive at the possible risk of +/- 60 basis point was based on both statistical and non-statistical analysis. The statistical analysis has been based on the cash rate for the past five years issued by the Reserve Bank of Australia (RBA) as the underlying dataset. This information is then revised and adjusted for reasonableness under the current economic circumstances. The ASC's sensitivity to a movement in interest rates of +/-60 basis points and the effect on net costs of services and equity for 2015-16 is negligible.

Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Commission is exposed to foreign exchange risk primarily through undertaking certain transactions denominated in foreign currency and through the operation of a foreign currency bank account held in Italy for the Commission's European Training Centre. The Commission is exposed to foreign currency denominated in Euros.

AUSTRALIAN SPORTS COMMISSION  
 NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
 For the year ended 30 June 2016

---

Note 15: Assets held in trust

**Gary Knoke Memorial Scholarship Trust Account**

**Purpose** – The Gary Knoke Memorial Scholarship Trust Account is to be used for the provision of scholarships to eligible persons nominated by Athletics Australia. These monies are not available for other purposes of the Commission and are not recognised in the financial statements.

	2016 \$'000	2015 \$'000
Total amounts held at the beginning of the reporting period	49	48
Receipts	1	1
Payments	(4)	-
Total amounts held at the end of the reporting period	46	49

**Promoters Trust Account**

**Purpose** – The Commission operates a Promoters Trust Account into which it deposits monies received in the course of conducting events at the Commission. These monies are held until such time as the events are completed and all costs associated with the events have been finalised. The remaining funds are then apportioned between the promoter and the Commission in accordance with the terms of each agreement. These monies are not available for other purposes of the Commission and are not recognised in the financial statements.

	2016 \$'000	2015 \$'000
Total amounts held at the beginning of the reporting period	856	65
Receipts	2,801	1,827
Payments	(3,436)	(1,036)
Total amounts held at the end of the reporting period	221	856

AUSTRALIAN SPORTS COMMISSION

For the year ended 30 June 2016

Note 16: Reporting of outcomes

A review was conducted of all cost centres used by the Commission. Where a cost centre could be directly attributed to a particular outcome all costs associated with that cost centre were attributed to that outcome. Where a cost centre was an overhead cost centre, the attribution was based on the direct attribution percentage. The basis of attribution in the table below is consistent with the basis used for the Budget.

Note 16A: Major classes of expenses, income, assets and liabilities by outcomes

	Outcome 1		Outcome 2		Not attributed*		Total

AUSTRALIAN SPORTS COMMISSION  
 NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS  
 For the year ended 30 June 2016

Note 17: Explanations of major variances

Note 17A: Major budget variances for 2015-16

The following table provides explanations for major variances between the Original Budget as presented in the 2015-16 Portfolio Budget Statements (PBS) to the 2015-16 final outcome as presented in accordance with Australian Accounting Standards. The Budget is not audited.

The ASC provides high level commentary of major variances between original budgeted and actual amounts. Major variances are those deemed relevant to the analysis of ASC's performance and are not focussed merely on numerical differences between the Budget and actual amounts.

Affected line items (and statement)	Explanations of major variances
<b>Grants</b> (Statement of Comprehensive Income) <b>Grants</b> (Cash Flow Statement)	When compared to Original Budget, an additional \$6.928m in grant expenditure was paid in 2015-16. The increase against Original Budget was primarily driven by an increase in High Performance and Participation grants paid to national sporting organisations. These grants were provided through additional funding from the Department of Health received in 2014-15, and used in 2015-16 through an approved increase in the operating loss by the Minister for Finance.
<b>Suppliers</b> (Statement of Comprehensive Income) <b>Suppliers</b> (Cash Flow Statement)	Supplier expenses were \$6.707m higher than budgeted in the Original Budget. The increase was primarily driven by the increase in variable costs associated with increased commercial revenues along with costs carried over from 2014-15.
<b>Changes in asset revaluation reserves</b> (Statement of Comprehensive Income) <b>Reserves</b> (Statement of Financial Position)	When compared to Original Budget, the asset revaluation reserve has increased by \$9.931m due to the 2015-16 revaluation of land and buildings. Revaluation movements were not known at the time of the preparation of the Budget.
<b>Land and buildings</b> (Statement of Financial Position) <b>Infrastructure, plant and equipment</b> (Statement of Financial Position) <b>Reserves</b> (Statement of Financial Position) <b>Purchase of property plant and equipment</b> (Cash Flow Statement) <b>Asset revaluation reserve</b> (Statement of Changes in Equity)	When compared to Original Budget, total Non financial Assets have increased by \$16.974m. This is due to a \$9.931m asset revaluation increase, which was not known at the time of the preparation of the Budget and a movement of capital funds approved across years post-budget to replace ASC assets in 2015-16.
